

## Synapsin I (phospho Ser62) Polyclonal Antibody

Catalog No	BYab-00643
Isotype	IgG
Reactivity	Human;Mouse;Rat
Applications	WB;IHC;IF;ELISA
Gene Name	SYN1
Protein Name	Synapsin-1
Immunogen	The antiserum was produced against synthesized peptide derived from human Synapsin1 around the phosphorylation site of Ser62. AA range:26-75
Specificity	Phospho-Synapsin I (S62) Polyclonal Antibody detects endogenous levels of Synapsin I protein only when phosphorylated at S62.
Formulation	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Source	Polyclonal, Rabbit,IgG
Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.
Dilution	WB: 1/500 - 1/2000. IHC: 1/100 - 1/300. ELISA: 1/10000 IF 1:50-200
Concentration	1 mg/ml
Concentration Purity	1 mg/ml ≥90%
Purity	≥90%
Purity Storage Stability	≥90% -20°C/1 year
Purity Storage Stability Synonyms	≥90% -20°C/1 year  SYN1; Synapsin-1; Brain protein 4.1; Synapsin I
Purity Storage Stability Synonyms Observed Band	≥90%  -20°C/1 year  SYN1; Synapsin-1; Brain protein 4.1; Synapsin I  80kD

NOS1. Isoform Ib interacts with

Background	This gene is a member of the synapsin gene family. Synapsins encode neuronal phosphoproteins which associate with the cytoplasmic surface of synaptic vesicles. Family members are characterized by common protein domains, and they are implicated in synaptogenesis and the modulation of neurotransmitter release, suggesting a potential role in several neuropsychiatric diseases. This member of the synapsin family plays a role in regulation of axonogenesis and synaptogenesis. The protein encoded serves as a substrate for several different protein kinases and phosphorylation may function in the regulation of this protein in the nerve terminal. Mutations in this gene may be associated with X-linked disorders with primary neuronal degeneration such as Rett syndrome. Alternatively spliced transcript variants encoding different isoforms have been identified. [provided by RefSeq, Jul 2008],
matters needing attention	Avoid repeated freezing and thawing!

**Usage suggestions** 

This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.
