

RUNX3 Polyclonal Antibody

Catalog No BYab-02000 Isotype IgG Reactivity Human;Mouse Applications WB;ELISA Gene Name RUNX3 Protein Name Runt-related transcription factor 3 Immunogen The antiserum was produced against synthesized peptide derived from human RUNX3. AA range:133-182 Specificity RUNX3 Polyclonal Antibody detects endogenous levels of RUNX3 protein. Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. Source Polyclonal, Rabbit, IgG Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. Dilution Western Blot: 1/500 - 1/2000. ELISA: 1/40000. Not yet tested in other applications. Concentration 1 mg/ml Purity ≥90% Storage Stability -20°C/1 year Synonyms RUNX3; AML2; CBFA3; PEBP2A3; Runt-related transcription factor 3; Acute myeloid leukemia 2 protein; Core-binding factor subunit alpha-3; CBF-alpha-3; Oncogene AML-2; Polyomavirus enhancer-binding protein 2 alpha C subunit; PEA2-alpha C; PEB Observed Band 44KD Cell Pathway Nucleus , Cytoplasm . The tyrosine phosphorylated form localizes to the cytoplasm. Tr

	through the Runt domain. DNA-binding is increased by heterodimerization. Interacts with TLE1 and SUV39H1.,
Background	This gene encodes a member of the runt domain-containing family of transcription factors. A heterodimer of this protein and a beta subunit forms a complex that binds to the core DNA sequence 5'-PYGPYGGT-3' found in a number of enhancers and promoters, and can either activate or suppress transcription. It also interacts with other transcription factors. It functions as a tumor suppressor, and the gene is frequently deleted or transcriptionally silenced in cancer. Alternative splicing results in multiple transcript variants. [provided by RefSeq, Mar 2016],
matters needing attention	Avoid repeated freezing and thawing!
Usage suggestions	This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.
