

Lck BP-1 Polyclonal Antibody

Catalog No BYab-04295 Isotype IgG Reactivity Human;Rat;Mouse; Applications WB;IHC Gene Name HCLS1 Protein Name Hematopoietic lineage cell-specific protein Immunogen Synthesized peptide derived from Lck BP-1, at AA range; 340-420 Specificity Lck BP-1 Polyclonal Antibody detects endogenous levels of Lck BP-1 protein. Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. Source Polyclonal, Rabbit,IgG Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. Dilution WB 1:S00-2000;IHC-p 1:50-300 Concentration 1 mg/ml Purity ≥90% Storage Stability -20°C/1 year Synonyms HCLS1; HS1; Hematopoietic lineage cell-specific protein; Hematopoietic cell-specific LYN substrate 1; LckBP1; p75 Observed Band 54kD Cell Pathway Membrane; Peripheral membrane protein . Cytoplasm . Mitochondrion . Tissue Specificity Expressed only in tissues and cells of hematopoietic origin. Function developmental stage:E		
Reactivity Human;Rat;Mouse; Applications WB;IHC Gene Name HCLS1 Protein Name Hematopoietic lineage cell-specific protein Immunogen Synthesized peptide derived from Lck BP-1 . at AA range: 340-420 Specificity Lck BP-1 Polyclonal Antibody detects endogenous levels of Lck BP-1 protein. Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. Source Polyclonal, Rabbit,IgG Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. Dilution WB 1:500-2000;IHC-p 1:50-300 Concentration 1 mg/ml Purity ≥90% Storage Stability -20°C/1 year Synonyms HCLS1; HS1; Hematopoietic lineage cell-specific protein; Hematopoietic cell-specific LYN substrate 1; LckBP1; p75 Observed Band 54kD Cell Pathway Membrane; Peripheral membrane protein . Cytoplasm . Mitochondrion . Tissue Specificity Expressed only in tissues and cells of hematopoietic origin. Function developmental stage: Expressed in early stage of myeloid and erythroid differentiation, function: Substrate of the antigen receptor-coupled tyrosine kinase. Plays a role in antigen receptor signaling for both clonal expansion and deletion in lymphoid cells. May also be involved in the regulation of gene expression. PTM: Phosphorylated by LYN; rapidly after cross-linking of surface glyd on B-cells, similarity: Contains is 4 Std domain occurs constitutively, while brinding to the LCK SH3 domain occurs constitutively, while brinding to the LCK SH3 domain occurs constitutively, while brinding to the LCK SH3 domain occurs constitutively, while brinding to the LCK SH3 domain occurs constitutively, while brinding to the LCK SH3 domain occurs constitutively, while brinding to the LCK SH3 domain occurs constitutively, while brinding to the LCK SH3 domain occurs constitutively, while brinding to the LCK SH3 domain occurs constitutively, while brinding to the LCK SH3 domain occurs constitutively, while brinding to the LCK SH3 domain occurs constitutively, while brinding to the LC	Catalog No	BYab-04295
