

FNBP4 Polyclonal Antibody

Catalog No BYab-05591 Isotype IgG Reactivity Human; Mouse Applications WB;ELISA Gene Name FNBP4 FBP30 KIAA1014 Protein Name Formin-binding protein 4 (Formin-binding protein 30) Immunogen Synthesized peptide derived from part region of human protein Specificity FNBP4 Polyclonal Antibody detects endogenous levels of protein. Formulation Liquid in PBS containing 50% glycerol, and 0.02% sodium azide. Source Polyclonal, Rabbit, IgG Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. Dilution WB 1:500-2000 ELISA 1:5000-20000 Concentration 1 mg/ml Purity 290% Storage Stability -20°C/1 year Synonyms Observed Band 111kD Cell Pathway nucleoplasm, Tissue Specificity Highly expressed in the eye. Function domain: These WW domains interact with Arg/Gly-rich-flanked Pro-rich domains found in several WW domain-binding proteins (WBPs). The N-terminal WW domain binding, billity, PTM: Phosphorylated upon DNA damage, probably by ATM or ATR. similiarity.Contains		
Reactivity Human;Mouse Applications WB;ELISA Gene Name FNBP4 FBP30 KIAA1014 Protein Name Formin-binding protein 4 (Formin-binding protein 30) Immunogen Synthesized peptide derived from part region of human protein Specificity FNBP4 Polyclonal Antibody detects endogenous levels of protein. Formulation Liquid in PBS containing 50% glycerol, and 0.02% sodium azide. Source Polyclonal, Rabbit,IgG Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. Dilution WB 1:500-2000 ELISA 1:5000-20000 Concentration 1 mg/ml Purity ≥90% Storage Stability -20°C/1 year Synonyms Observed Band 111kD Cell Pathway nucleoplasm, Tissue Specificity Highly expressed in the eye. Function domain:These WW domains interact with Arg/Gly-rich-flanked Pro-rich domains found in several WW domain-binding ability, PiD-PiD-piD-in-flanked Pro-rich of KHDRBS1/SAM68. Arginine methylation in these regions has no effect on this binding. Background domain:These WW domains interact with Arg/Gly-rich-flanked Pro-rich domains found in several	Catalog No	BYab-05591
