

ORC5 Polyclonal Antibody

Catalog No BYab-06696 Isotype IgG Reactivity Human;Mouse Applications WB;ELISA Gene Name ORC5 ORC5L Protein Name Origin recognition complex subunit 5 Immunogen Synthesized peptide derived from part region of human protein Specificity ORC5 Polyclonal Antibody detects endogenous levels of protein. Formulation Liquid in PBS containing 50% glycerol, and 0.02% sodium azide. Source Polyclonal, Rabbit, IgG Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. Dilution WB 1:500-2000 ELISA 1:5000-20000 Concentration 1 mg/ml Purity ≥90% Storage Stability -20*C/1 year Synonyms Observed Band 47kD Cell Pathway Nucleus : Chromosome : Tissue Specificity Abundant in spleen, ovary, prostate, testis, and colon mucosa. Function function:Component of the origin recognition complex (ORC) that binds origins of replication in in an ATP-dependent manner, similarly, Belongs to the ORC's famility, subunit:ORC is composed of six subunits, Belongs to the ORC's origins of		
Reactivity Human;Mouse Applications WB:ELISA Gene Name ORC5 ORC5L Protein Name Origin recognition complex subunit 5 Immunogen Synthesized peptide derived from part region of human protein Specificity ORC5 Polyclonal Antibody detects endogenous levels of protein.
