

LDLR Polyclonal Antibody

| Catalog No | BYab-07098 |
|---------------------------|---|
| lsotype | lgG |
| Reactivity | Human;Rat;Mouse;Bovine |
| Applications | WB;ELISA |
| Gene Name | LDLR |
| Protein Name | Low-density lipoprotein receptor (LDL receptor) |
| Immunogen | Synthesized peptide derived from human protein . at AA range: 540-620 |
| Specificity | LDLR Polyclonal Antibody detects endogenous levels of protein. |
| Formulation | Liquid in PBS containing 50% glycerol, and 0.02% sodium azide. |
| Source | Polyclonal, Rabbit,IgG |
| Purification | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |
| Dilution | WB 1:500-2000 ELISA 1:5000-20000 |
| Concentration | 1 mg/ml |
| Purity | ≥90% |
| Storage Stability | -20°C/1 year |
| | |
| Synonyms | |
| Synonyms Observed Band | 94kD |
| | 94kD Cell membrane ; Single-pass type I membrane protein . Membrane, clathrin-coated pit . Golgi apparatus . Early endosome . Late endosome . Lysosome . Rapidly endocytosed upon ligand binding |
| Observed Band | Cell membrane ; Single-pass type I membrane protein . Membrane, clathrin-coated pit . Golgi apparatus . Early endosome . Late endosome . |

database,PTM:N- and O-glycosyla

| Background matters needing | The low density lipoprotein receptor (LDLR) gene family consists of cell surface proteins involved in receptor-mediated endocytosis of specific ligands. Low density lipoprotein (LDL) is normally bound at the cell membrane and taken into the cell ending up in lysosomes where the protein is degraded and the cholesterol is made available for repression of microsomal enzyme 3-hydroxy-3-methylglutaryl coenzyme A (HMG CoA) reductase, the rate-limiting step in cholesterol synthesis. At the same time, a reciprocal stimulation of cholesterol ester synthesis takes place. Mutations in this gene cause the autosomal dominant disorder, familial hypercholesterolemia. Alternate splicing results in multiple transcript variants.[provided by RefSeq, Sep 2010], Avoid repeated freezing and thawing! |
