

TEKT1 rabbit pAb

Catalog No BYab-12090 Isotype IgG Reactivity Human; Mouse;Rat Applications WB Gene Name TEKT1 Protein Name TEKT1 Immunogen Synthesized peptide derived from human TEKT1 AA range: 238-288 Specificity This antibody detects endogenous levels of TEKT1 at Human/Mouse/Rat Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. Source Polyclonal, Rabbit,IgG Purification The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen. Dilution WB 1: 500-2000 Concentration 1 mg/ml Purity ≥90% Storage Stability -20°C/1 year Synonyms Observed Band Cell Pathway Cytoplasm, cytoskeleton, cilium axoneme. Cytoplasm, cytoskeleton, flagellum axoneme. Tissue Specificity Predominantly expressed in testis. Function function:Structural component of ciliary and flagellar microtubules. Forms fillament-torming proteins that are coassembled with tubulins to form ciliary and flagellar microtubules. Telvins comprise a family of fillament-forming proteins that are coassembled with tubulins to form

Cytoplasm, cytoskeleton, flagellum axoneme. Tissue Specificity Predominantly expressed in testis. Function function:Structural component of ciliary and flagellar microtubules. Forms filamentous polymers in the walls of ciliary and flagellar microtubules. Forms filamentous polymers in the walls of ciliary and flagellar microtubules. Forms filamentous polymers in the walls of ciliary and flagellar microtubules. This gene product belongs to the tektin family, tissue specificity: Predominantly expressed in testis. Background This gene product belongs to the tektin family of proteins. Tektins comprise a family of flament-forming proteins that are coassembled with tubulins to form ciliary and flagellar microtubules. This gene is predominantly expressed in the testis and in mouse, tektin 1 mRNA was localized to the spermatocytes and round spermatide in the seminiferous tubules, indicating that it may play a role in the testis and in mouse, tektin 1 mRNA was localized to the spermatocytes and round spermatides.
