

LIGHT Polyclonal Antibody

Catalog No BYab-15945 Isotype IgG Reactivity Human;Mouse Applications WB;IHC Gene Name TNFSF14 Protein Name Tumor necrosis factor ligand superfamily member 14 Immunogen The antiserum was produced against synthesized peptide derived from human TNF14. AA range:51-100 Specificity LIGHT Polyclonal Antibody detects endogenous levels of LIGHT protein. Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. Source Polyclonal, Rabbit, IgG Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. Dilution WB 1:500-2000; IHC-p 1:50-300 Concentration 1 mg/ml Purity ≥90% Storage Stability -20°C/1 year Synonyms TNFSF14; HVEML; LIGHT; Tumor necrosis factor ligand superfamily member 14, Herpes virus entry mediator ligand; HVEM-L; Herpesvirus entry mediator ligand; CD 258 Observed Band Immorphisms of the protein; Tumor necrosis factor ligand superfamily member 14, membrane form]; Cell membrane; Single-pass type II membrane protein; Tumor necrosis factor ligand superfamily member 14, soluble form]. Secreted; [Isoform 2]; Cytoplasm.		
Reactivity	Catalog No	BYab-15945
Applications WB;HC Gene Name TNFSF14 Protein Name Tumor necrosis factor ligand superfamily member 14 Immunogen The antiserum was produced against synthesized peptide derived from human TNF14. AA range:51-100 Specificity LIGHT Polyclonal Antibody detects endogenous levels of LIGHT protein. Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. Source Polyclonal, Rabbit, IgG Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. Dilution WB 1:500-2000;IHC-p 1:50-300 Concentration 1 mg/ml Purity ≥90% Storage Stability -20°C/1 year Synonyms TNFSF14; HVEML; LIGHT; Tumor necrosis factor ligand superfamily member 14; Herpes virus entry mediator ligand; HVEM-L; Herpesvirus entry mediator ligand; CD antigen CD258 Observed Band Tiumor necrosis factor ligand superfamily member 14, membrane form]: Cell membrane; Single-pass type II membrane protein.; Tumor necrosis factor ligand superfamily member 14, soluble form]: Secreted.; Ilsoform 2]: Cytopiam. Tissue Specificity Precominantly expressed in the splene but also found in the brain. Weakly expressed in peripheral lymphoid tissues and in heart, placenta, liver, lung, appendix, and kidney, and no expression seen in fetal tissues, endocrine glands, or nonhematopoietic tumor lines. Function function:Cytokine that binds to TNFRSF3/LTBR. Binding to the decoy receptor TNFRSF6B modulates its effects. Activates NFMs, stimulates the proliferation of T-cells, and inhibits growth of the adenocarcinoma HT-29. Acts as a receptor for Herpes simplex virus. induction:Up-requalated after T-cell	Isotype	IgG

nonhematopoietic tumor lines.,	, ,

Background

The protein encoded by this gene is a member of the tumor necrosis factor (TNF) ligand family. This protein is a ligand for TNFRSF14, which is a member of the tumor necrosis factor receptor superfamily, and which is also known as a herpesvirus entry mediator (HVEM). This protein may function as a costimulatory factor for the activation of lymphoid cells and as a deterrent to infection by herpesvirus. This protein has been shown to stimulate the proliferation of T cells, and trigger apoptosis of various tumor cells. This protein is also reported to prevent tumor necrosis factor alpha mediated apoptosis in primary hepatocyte. Two alternatively spliced transcript variant encoding distinct isoforms have been reported. [provided by RefSeq, Jul 2008],

Avoid repeated freezing and thawing!

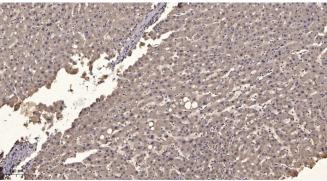

Usage suggestions

This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.

Products Images

Immunofluorescence analysis of HeLa cells, using TNF14 Antibody. The picture on the right is blocked with the synthesized peptide.

Immunohistochemical analysis of paraffin-embedded human liver cancer. 1, Antibody was diluted at 1:200(4° overnight). 2, Tris-EDTA,pH9.0 was used for antigen retrieval. 3,Secondary antibody was diluted at 1:200(room temperature, 45min).
