

## Inhibin β-E Polyclonal Antibody

BYab-16015IgGHuman;Mouse;RatWB;IHC;IF;ELISAINHBEInhibin beta E chainThe antiserum was produced against synthesized peptide derived from the C-terminal region of human INHBE. AA range:301-350Inhibin β-E Polyclonal Antibody detects endogenous levels of Inhibin β-E protein.Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.Polyclonal, Rabbit,IgGThe antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.WB: 1/500 - 1/2000. IHC-p: 1/100-1/300. ELISA: 1/20000. IF 1:50-200

function:Inhibins and activins inhibit and activate, respectively, the secretion of follitropin by the pituitary gland. Inhibins/activins are involved in regulating a number of diverse functions such as hypothalamic and pituitary hormone secretion, gonadal hormone secretion, germ cell development and maturation, erythroid differentiation, insulin secretion, nerve cell survival, embryonic axial development or bone growth, depending on their subunit composition. Inhibins appear to oppose the functions of activins.,similarity:Belongs to the TGF-beta family.,subunit:Homodimeric or heterodimeric through association with alpha and beta subunits, linked by one or more disulfide bonds. Inhibins are heterodimers of

Background	This gene encodes a member of the TGF-beta (transforming growth factor-beta) superfamily of proteins. The encoded preproprotein is proteolytically processed to generate an inhibin beta subunit. Inhibins have been implicated in regulating numerous cellular processes including cell proliferation, apoptosis, immune response and hormone secretion. This gene may be upregulated under conditions of endoplasmic reticulum stress, and this protein may inhibit cellular proliferation and growth in pancreas and liver. [provided by RefSeq, Sep 2016],
matters needing attention	Avoid repeated freezing and thawing!
Usage suggestions	This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.
